

Smtplib Authentication σε Microsoft Outlook 2013

- 2022-10-25 - Email Clients

Σε περίπτωση που χρειαστεί να ενεργοποιήσετε το authentication στον email λογαριασμό σας που έχετε στήσει στο Outlook 2013 Client, ακολουθήστε τα παρακάτω βήματα :

1. Ανοίξτε το Outlook 2013 και από το **File**, επιλέξτε **Account Settings**

Account Information

admin@...gr
POP/SMTP

+ Add Account

Account Settings

Account and Social Network Settings
Change settings for this account or set up more connections.

- Connect to social networks.

Account Settings...
Add and remove accounts or change existing connection settings.

Social Network Accounts
Configure Office to connect to social networks.

Rules and Alerts
Use Rules and Alerts to help organize your incoming e-mail messages, and receive updates when items are added, changed, or removed.

Manage Rules & Alerts

2. Κάντε **διπλό κλικ** επάνω στον **email λογαριασμό**.

Account Settings

E-mail Accounts

You can add or remove an account. You can select an account and change its settings.

Name	Type
admin@...gr	POP/SMTP (send from this account by default)

Selected account delivers new messages to the following location:

Change Folder admin@... \Inbox
in data file C:\Users\...\Documents\Outlook Files\...pst

Close

3. Στο παράθυρο που θα ανοίξει, επιλέξτε **More Settings**

POP and IMAP Account Settings

Enter the mail server settings for your account.

User Information	Test Account Settings
Your Name: <input type="text"/>	We recommend that you test your account to ensure that the entries are correct.
Email Address: <input type="text" value="admin@.gr"/>	<input type="button" value="Test Account Settings ..."/>
Server Information	<input checked="" type="checkbox"/> Automatically test account settings when Next is clicked
