4. Select the theme and language that you want and click on **Select Theme**.

Warning! by activating the **Under Construction or For Sale Page**, the Nameservers will change to dns1.papaki.gr and dns2.papaki.gr which belong to the DNS service of Papaki, while inserting the required DNS records, so that your page appears online.

If you already have another service such as emails enabled, you will have to insert the email records that your email provider has given you in the Papaki DNS service.

Notice:

To activate this service, the nameservers will have to be updated to:

Before the Update	After the Update
ns180.papaki.gr (138.201.37.101)	dns1.papaki.gr
ns280.papaki.gr (88.99.44.141)	dns2.papaki.gr
