

Can I set email expiration notifications for my domains?

- 2023-01-03 - Papaki Panel

You can add up to five expiration notifications, sent to you by email, on specific days before the domain expiration dates. You can easily set, add or remove your expiration notifications through your Control Panel at Papaki. You just need to [log in](#), click on "MY ACCOUNT", then choose "PROFILE MANAGER" and click on the tab "EMAIL/SMS NOTIFICATIONS".
