

## How can I change the password of my email account through Plesk?

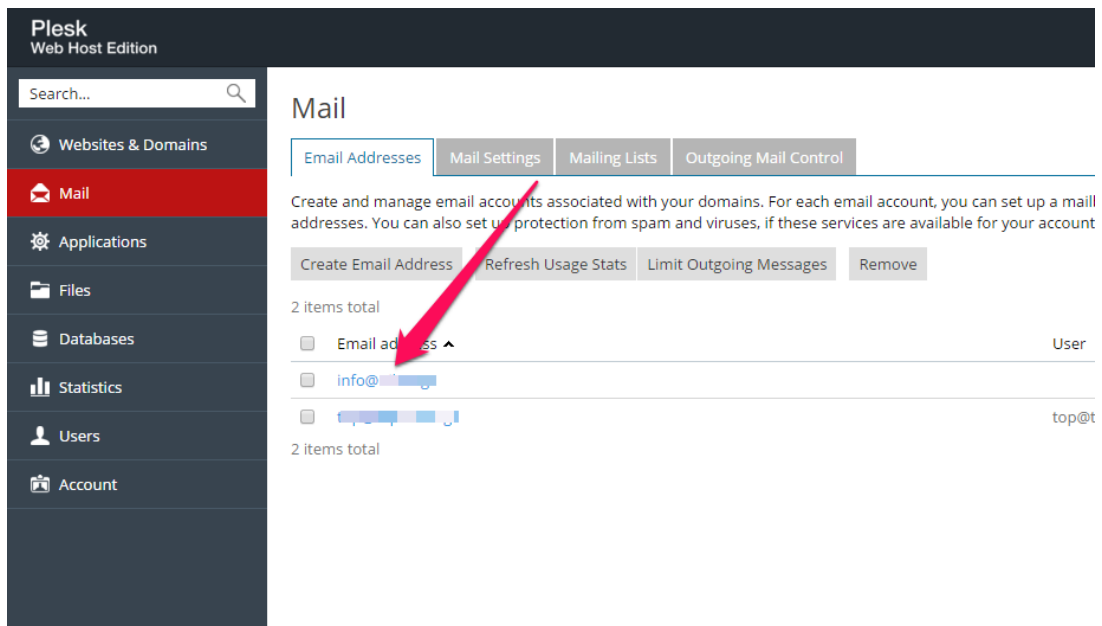

- 2023-01-14 - Email

In order to change the password of your email account through Plesk, follow these steps:

1. Sign in to Plesk, with the access details you received in the activation email.

2. On the Mail tab, select the email account.

3. In the "password" and "confirm password" fields, enter your new password and click on OK

Mail > Email Addresses

info@

General Forwarding Email Aliases Auto-Reply

If this email account is associated with an auxiliary user (Access to the Customer Panel is enabled), the changes you make on this page changed to the new values as well.

Email address \* info@

☐ Access to the Customer Panel (username: info@)

Password

This password will be used for accessing the mailbox and for logging in to Plesk if the address is associated with an auxiliary user.

Generate Show

Confirm password

☒ Mailbox

☒ Default size (300 messages per hour)

☐ Another size KB

The mailbox size cannot exceed the default size.

The maximum number of outgoing email messages

☒ Default (300 messages per hour)

☐ Custom value for the mailbox

0 messages ☐ Unlimited

Description in Plesk

The description is visible to everyone who has access to this email account.
